

Optics & photonics

INNOVATION HUB

The **Optics and Photonics Innovation Hub** is a dedicated area in the MTA2017 exhibition that aims to be an innovative technology showcase in the field of optics and photonics. The exhibits in the Optics & Photonics Innovation Hub will include:

- ▶ Research and innovative products from universities, research institutions and non-profits organisations
- ▶ Manufacturers and suppliers of technologies for the industry

THE 21ST EDITION
mta
MANUFACTURING
TECHNOLOGY ASIA **2017**

4 - 7 APRIL 2017

TUESDAY – FRIDAY

SINGAPORE EXPO

www.mta-asia.com

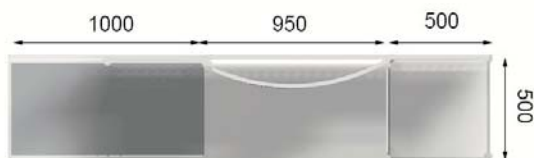

WHO SHOULD EXHIBIT

- ▶ Chemical, Clinical and Biological Instruments & Devices
- ▶ Cameras and Charge-Coupled Device (CCD) Components
- ▶ Displays, Communications Devices
- ▶ Electronic Imaging Components, Equipment and Systems
- ▶ Electron-beam, EUV, Ion-beam, X-ray
- ▶ Electronics and Signal Analysis Devices
- ▶ Fibre-optic Components, Equipment and Systems
- ▶ High-speed Sensing and Imaging Devices and Systems
- ▶ Infra-red Sources, Detectors, Equipment and Systems
- ▶ Lasers, Laser systems and other light sources accessories and systems
- ▶ Medical / Biological & Chemical Sensing
- ▶ Metrology and Inspection Equipment
- ▶ Optics, Filters and Coatings, Optical Fabrication Equipment
- ▶ Optical Components, Detectors, Fibres, Materials & Substrates
- ▶ Optical Test and Measurement Systems and Equipment
- ▶ Optics Manufacturing
- ▶ Photonics Equipment Manufacturing
- ▶ Resist Technology and Processing
- ▶ Software

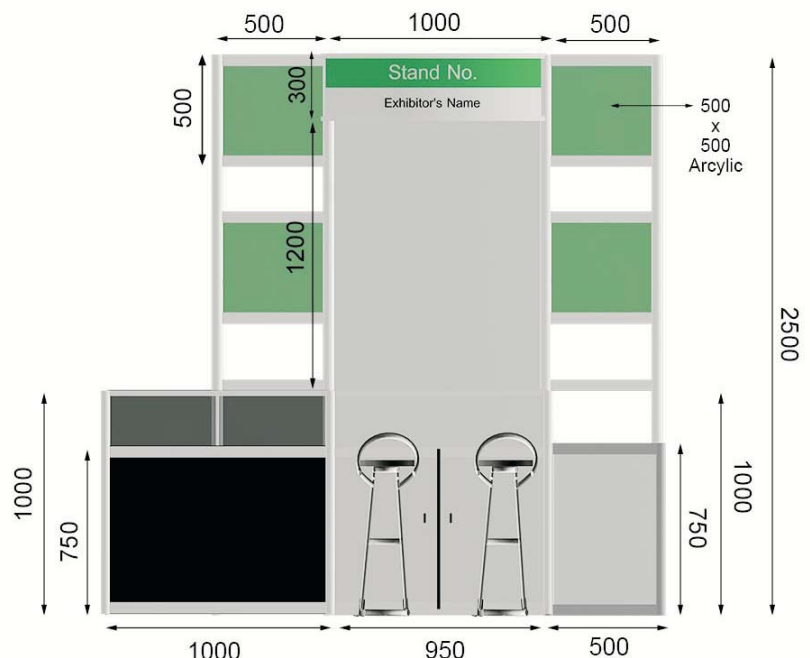

COST OF PARTICIPATION: SGD600 per Exhibition Pod

Entitlements for Exhibition Pod

- 1 panel for poster* display
Size of panel: 950mm x 1200mm (W x H)
*Poster to be provided by exhibitor
- 2 units of bar stool
- 1 unit of counter with a lockable cupboard
- 1 unit of 13-amp power point
- 1 unit of low showcase
- 1 unit of display block
- 1 fascia board with company name
